Product details

- Automatic infeeder
- Ideal for medium output ranges
- Suitable for equal lane to format track insertion
- The machine can be moved laterally, ensuring easy access to the packaging machine
Webber weLOAD 1000: automatic infeeder in the medium output range.

Fully automatic transport and insertion of portions: the Webber weLOAD 1000 is an automatic infeeder designed for equal lane to format track insertion and the perfect infeeder solution in the medium output range. During the development of the weLOAD 1000, special attention was given to its seamless integration into production lines. In addition to the compact design, which minimizes the overall line length, this automatic infeeder excels in ease of use and adherence to the highest hygiene standards. The height and angle of the infeed conveyor can be adjusted on the infeeder, allowing for flexible adjustment to various operating conditions. To ensure easy access to the packaging machine, the weLOAD 1000 is also movable.

Advantages

- Compact, open design
- Flexible height adjustment of the infeeder
- Conveyor width approx. 450 mm
- Two buffer conveyors each 500 mm long
- Optional sorting conveyor on top
