Slicer 804

Product details

- All-rounder for a wide variety of applications
- Involute blade slicer with up to 2,000 slices/minute
- Up to 3x Variogripper

Advantages

- Involute blade
- Weber Hygiene Design
- Vacuum gripper
- Variogripper
- Quick set-up time
- SprayTech
- Interleaver
- Automatic loading

Weber Slicer 804: the all-purpose, high-performance slicer.

Weber Slicer 804 is among the most efficient systems in its class. The involute blade system cuts products of up to 1,700 mm in length at a maximum speed of up to 2,000 slices per minute. The automatic central loading ensures short product changeover times. The 804 slicer uses a blade head with an idle cut function, which can create a wide variety of sliced portions with individual slice thicknesses between 0.1 millimeters and 50 millimeters. The 400 mm wide and 180 mm high product throat permits up to four 95 caliber products or three 120 x 120 products to be processed simultaneously. The system includes a program-controlled, automatically configurable product clearance height and width. The Weber hygienic design ensures that the system is easy to clean.
