weSLICE 9500

The Weber Slicer weSLICE 9500 is the new high-performance machine in the slicer portfolio, which once again set the standard with regards to quality and performance. On the one hand, the uncompromising slicing quality and performance is achieved using the new Weber DirectDrive technology. The product is precisely guided by the direct drive of all components, so that in addition to perfectly sliced, visually appealing slices, the highest portion weight accuracy is achieved while at the same time providing maximum protection for the product. On the other hand, equipment highlights such as the Weber Durablade Performance involute blade ensures the best slicing quality. Moreover, the Vario technology of the new slicer-flagship weSLICE 9500 contributes to this unique performance. If Weber vacuum gripper technology is used, the product yield is increased even further, as remaining end pieces are reduced by more than half. The result: production with almost 100% weight-accurate portions and very low give-away. The new Weber Slicer weSLICE 9500 also has a lot to offer with regards to ergonomics, user-friendliness, and safety, such as the new tool-free quick-change system for product holders.

Thanks to the comprehensive line integration, the slicer can optimize the line speed for a smooth transport of the portion or automatically regulate the speed of subsequent components upwards. The line is therefore in the position to optimize itself, which leads to an overall increase in quality

Presentation

-  Stacked
-  Shingled
-  Endless-shingled
-  Circular-portion-designer
-  Multiple-overlaps - single/mixed
-  Staggered Stack
-  Shingled-with-interleave
-  Pieces

-  Folded
-  Overlapped - single/mixed

Technical Data weSLICE 9500

Width (mm)	1500
Slicing speed (rpm)	max. 2000
Product throat height (mm)	220
Product throat width (mm)	520
Product length (mm)	800/1200/1600/1850
Slicing system	Performance Durablade
Slicing thickness (mm)	0.5 - 50
Loading (automatic/manual)	Automatic central loading

Weber means: service across the board.

Weber Academy.

Maximize line performance through professional training courses.

At the Weber Headquarter in Breidenbach, Germany, we have our own training center, the Weber Academy. Being a provider of complete line solutions, we offer training courses for your Weber Line, tailored precisely to your needs. In doing so, our focus is always on increasing efficiency and optimizing profit in your company.

Weber Guardian.

A safe plan for your production.

Only those who listen can understand. And those who understand can act. With our Weber Guardian program, we harmonize people, machines, and processes to get the most out of production. From preventive maintenance and inspection through targeted personnel development to production support and optimization.

Weber Portal.

Networked thinking, handling together.

You will find everything about your Weber equipment bundled in your personal Weber Portal. Compact, individual and interactive. From your customer profile and that of your machines to e-learning on your setup as well as convenient spare parts ordering and service offers. Are you already registered?
